PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience developing enterprise banking applications using Java, Spring Boot, Microservices, REST APIs, Spring Security, OAuth2, and Oracle Database. Experienced in Escrow Management Systems, IPO Processing, Banking Integrations, SOAP/REST Services, Production Support, and Performance Optimization for ANB, Riyad Bank, and SAB.

SKILLS

Programming Languages: Java, SQL

Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Spring WebFlux

Microservices & Integration: Microservices, REST APIs, SOAP Services, Spring Cloud, Eureka, API Gateway, Kafka, RabbitMQ

Security: OAuth2, JWT Authentication

Databases: Oracle, PostgreSQL, MySQL

Tools: Git, Maven, Postman, IntelliJ IDEA, VS Code

Concepts: Microservices Architecture, API Integration, Agile Methodology, SOLID Principles

EXPERIENCE

Interland Technology Services Pvt. Ltd.

Trivandrum, Kerala

Software Engineer I

July 2024 – Present

Technologies: Java, Spring Boot, Spring Security, OAuth2, Oracle Database, REST APIs, SOAP Services, Microservices

- Developed and enhanced enterprise Escrow Management Systems for Arab National Bank (ANB), Riyad Bank, and Saudi Awwal Bank (SAB).
- Designed, developed, and maintained scalable backend services and RESTful APIs using Java, Spring Boot, Microservices, Spring Security, and OAuth2.
- Implemented business-critical modules including escrow management, customer onboarding, IPO processing, notification services, and banking integrations.
- Developed SOAP and REST API integrations with internal and external banking systems.
- Optimized Oracle SQL queries, enhancing data retrieval efficiency and overall system performance.
- Led Java and Spring Boot upgrades, improving application security, performance, and maintainability.
- Investigated and resolved production issues through root-cause analysis, debugging, and performance tuning.
- Collaborated with business analysts, QA teams, and stakeholders in Agile environments.

PROJECTS

PayZo Payroll Management System — Java, Spring Boot, Spring WebFlux, Kafka, RabbitMQ, PostgreSQL, Elasticsearch

<https://payzohr.com>

- Developed a microservices-based payroll administration platform using Java, Spring Boot, Spring WebFlux, Kafka, RabbitMQ, PostgreSQL, and Elasticsearch.
- Built secure REST APIs using Spring Security and OAuth2 and implemented centralized routing through Spring Cloud Gateway.
- Contributed to event-driven workflows and scalable backend services for payroll and compliance management.

CERTIFICATIONS

- Java Programming Masterclass
- Spring Boot and Microservices
- RESTful Web Services with Spring Boot
- Git and Version Control

EDUCATION

B.Tech, GITA Autonomous College, Bhubaneswar, Odisha

2020 – 2024

Computer Science and Engineering

CGPA: 9.0
